- Goes beyond medical care
- Combines different types/sources of data

Precision Health

Precision
Medicine

Personalized
Medicine

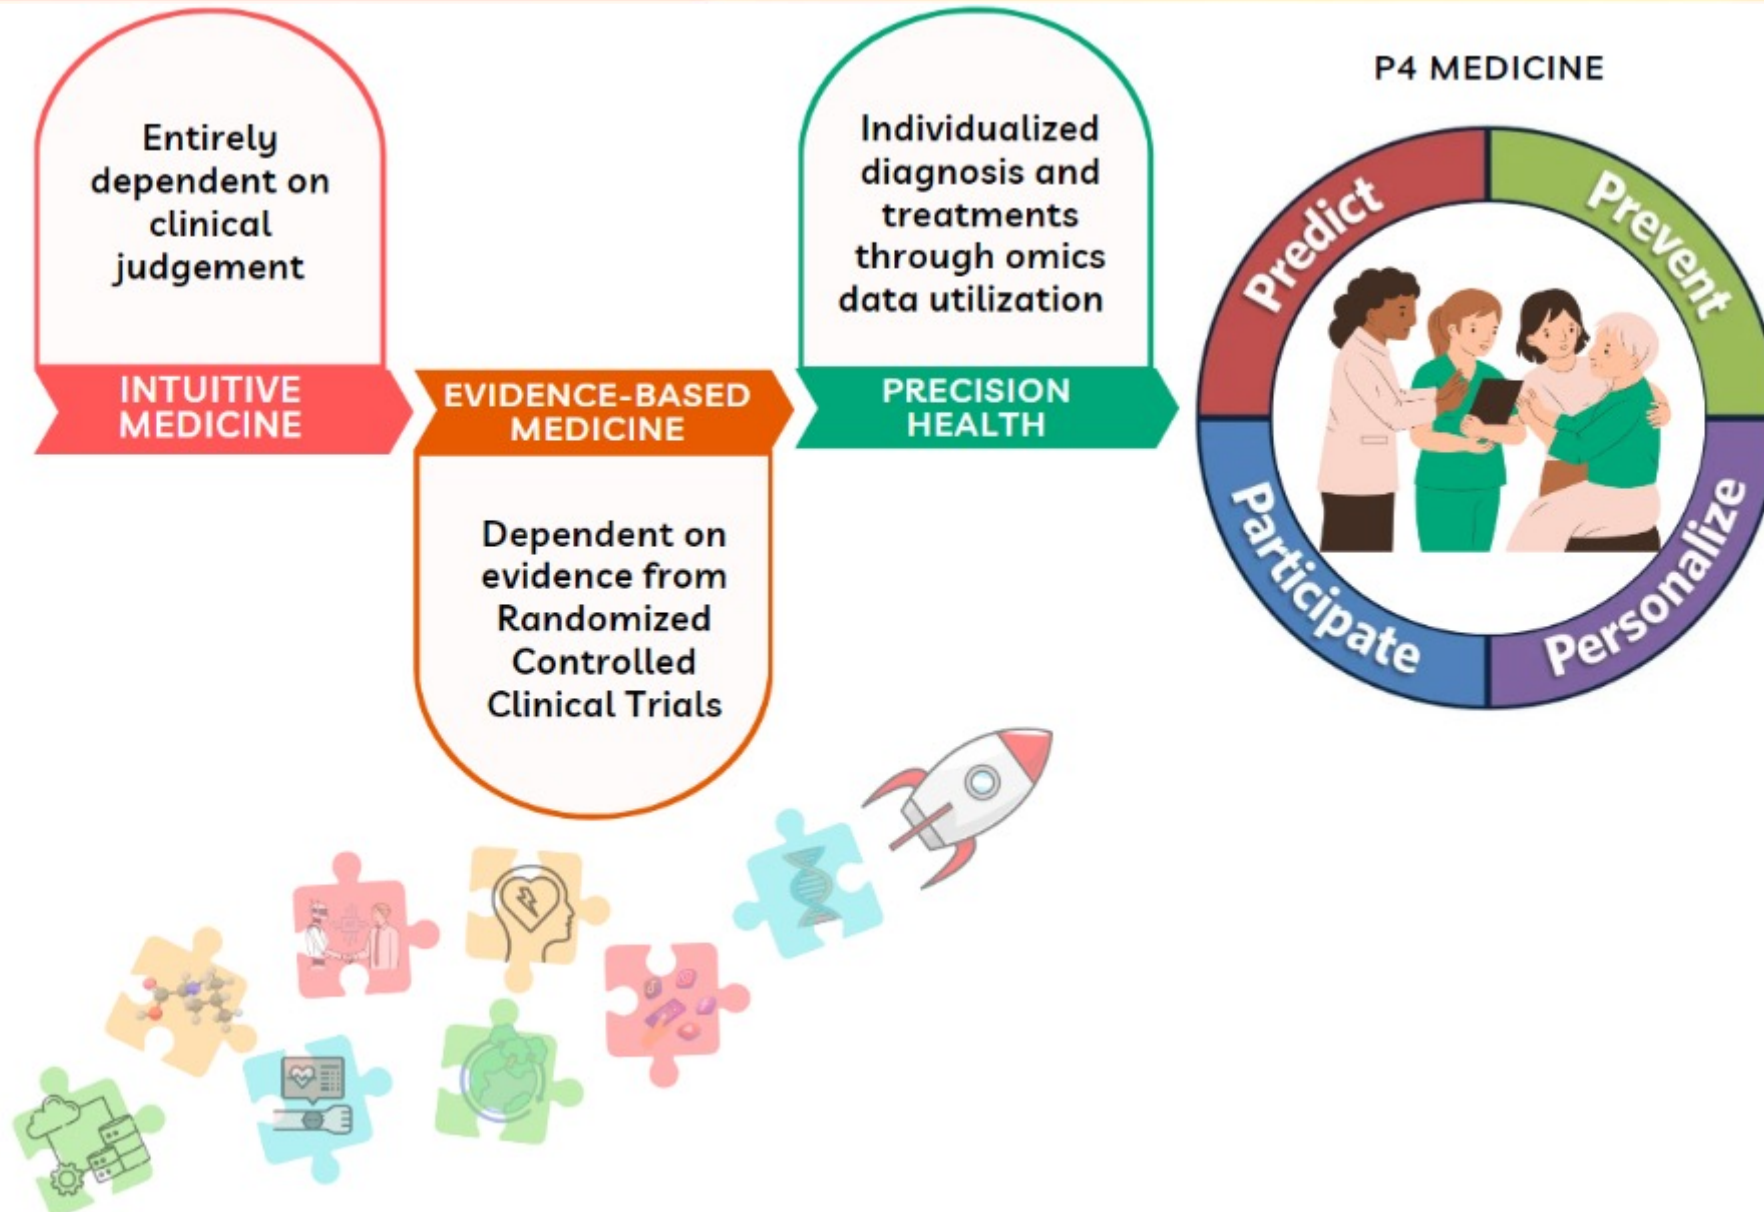

Precision
Public
Health

Individualized treatments based on:

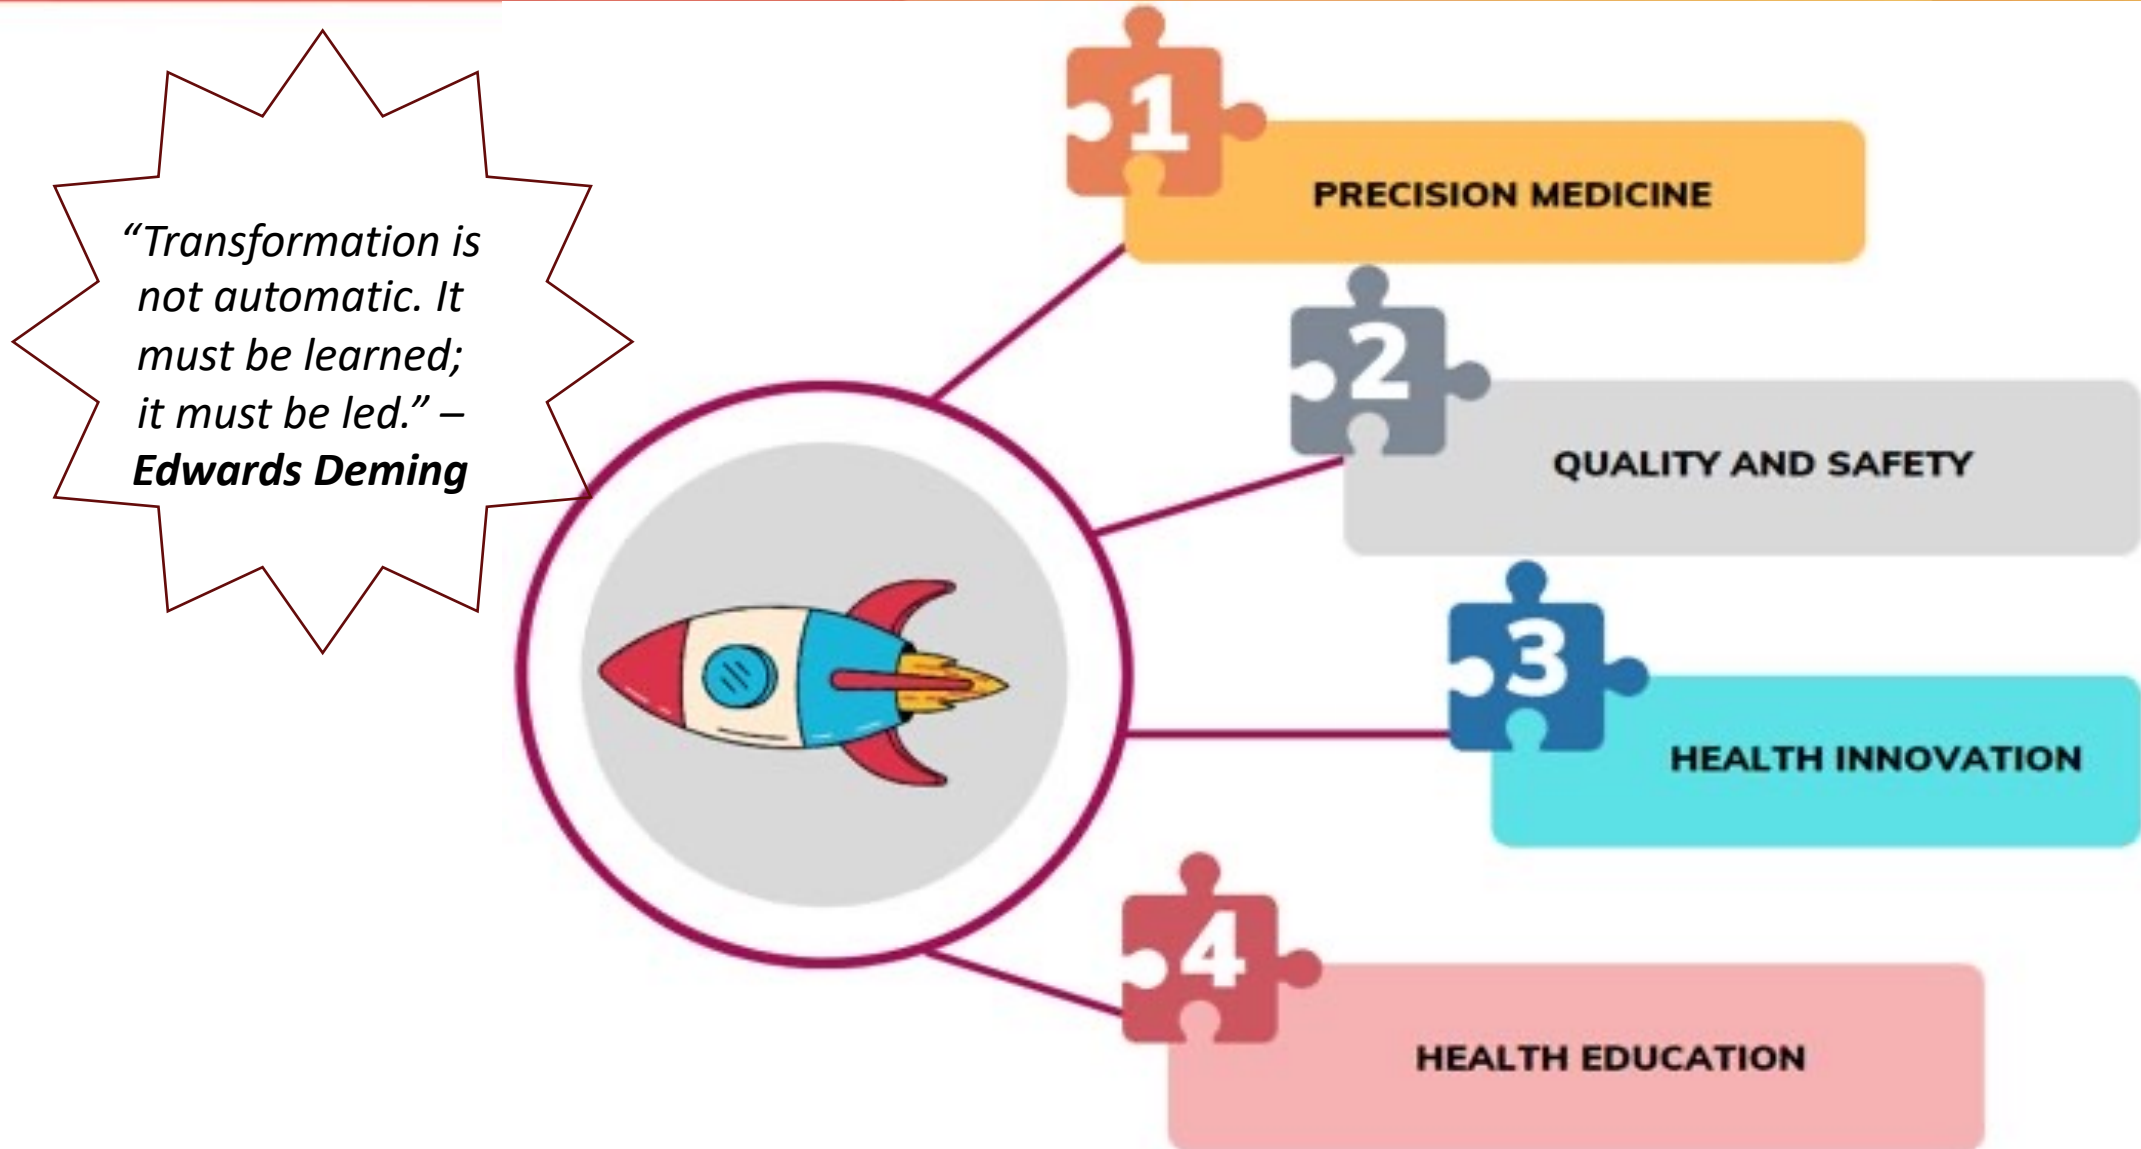

- *Unique characteristics*
- *Environment*
- *Genomic data*
- *Proteomic data*
- *Metabolomic data*

- *Improves population health*
- *Uses bigdata and analytics*

Evolving toward precision health ...

Implications for Medicine, Quality & Safety, Health Innovation, and Health Education

Envisioning and Enacting Precision Health in Canada

Activity 1. Current State Analysis (25 min)

In your groups, please discuss the current state in your organization and/or province in relation to Precision Health and

1. Precision Medicine
2. Quality and Safety
3. Health Innovation
4. Health Education

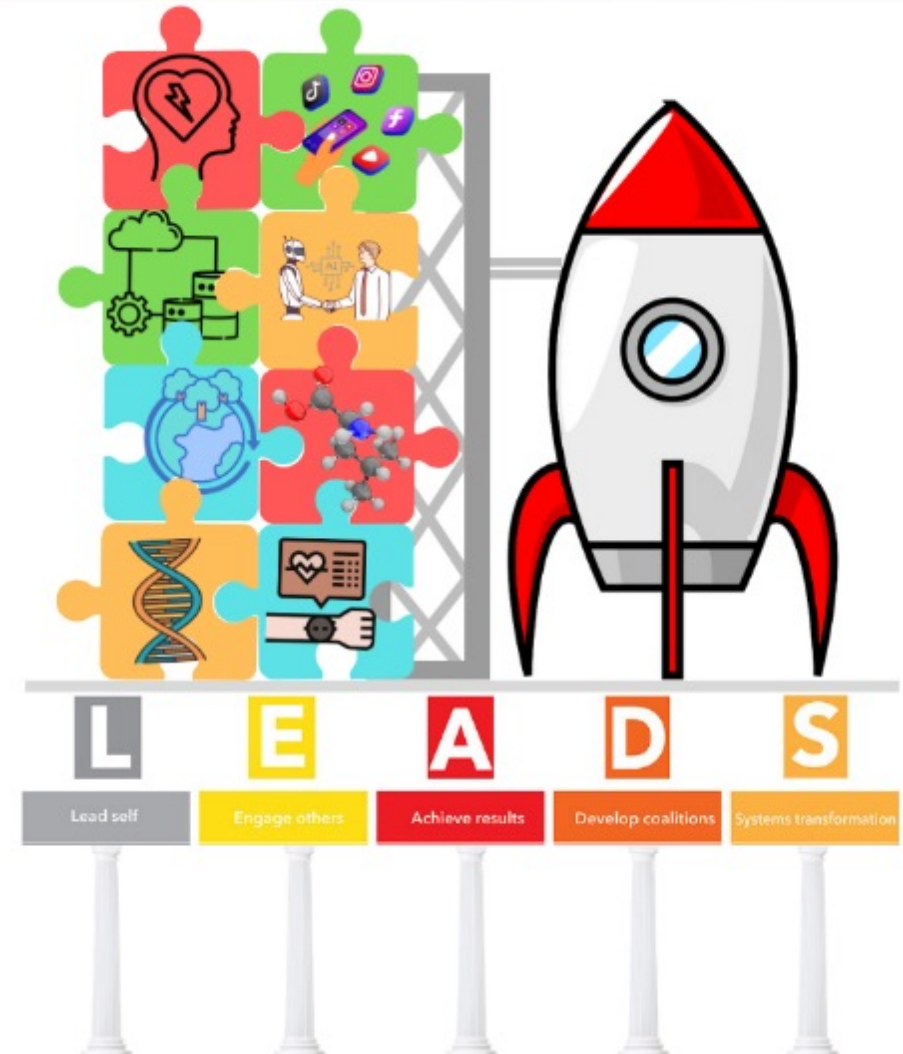

Detailed instructions are in your handout

Activity 1: What you were talking about ...

- **Tell us the top 2 ideas that emerged from your group discussions**

Activity 2. Moving towards the future (25 min)

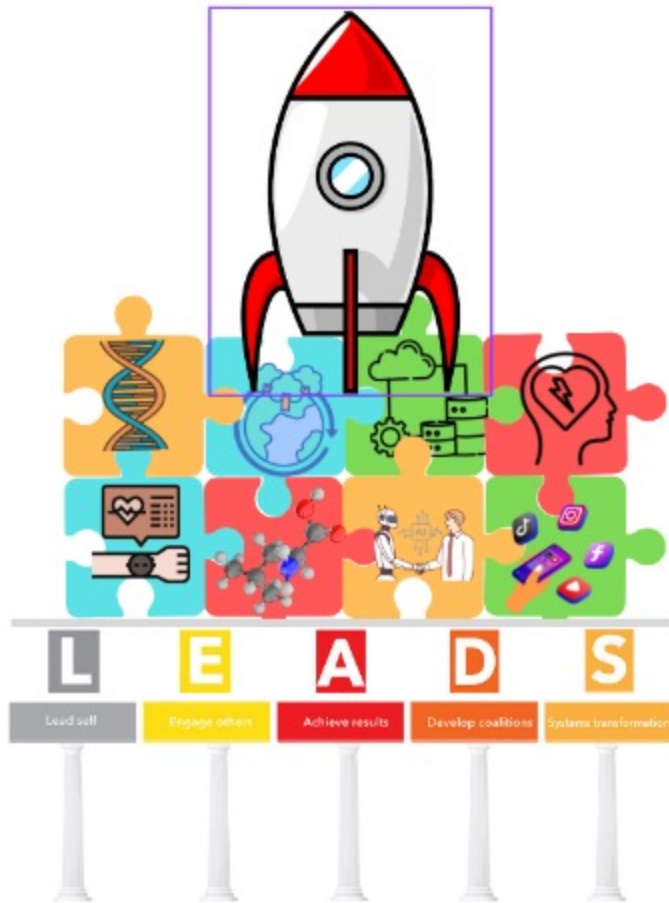

How will you advance your organization / province toward a future where Precision Health is (more) central to healthcare delivery?

Detailed instructions are in your handout

Activity 2: What you were talking about ...

- Tell us the top 2 ideas that emerged from your group discussions
