LEADERS EN SANTÉ

WHAT'S NEXT?

Fellowship Designation

The CHE pathway towards the Fellowship designation was created to inspire lifelong learning and to promote health system impact. Applicants must meet the basic eligibility requirements as well as completing the following:

Health Leadership Specialties (HLS)

Individuals are required to complete formal learning on a health specialty followed by a practical application of learning and demonstrated impact.

CCHL Contribution

These contributions promote and encourage the participation in CCHL activities and events and ensure a diverse and broad group of eligible volunteers.

CCHL Circle

The online community where members can connect, learn, and develop. CHE members have access to the Advanced Leaders Group which offers even more specialized leadership development opportunities including micro-learning and ReadingEdge Leadership, both facilitated by leadership experts.

WHAT'S NEXT?

Mentorship Program

Become a mentor and connect with emerging and experienced leaders that share the same interests. Participation in the CCHL's [Mentorship program](#) is a requirement to maintain your certification.

1:1 Coaching

Continue your 1:1 coaching experience by exploring [Coaching Bundles](#). Several options are available to best meet your and/or your organization's needs.

Certified LEADS Specialist Certification (CLS)

Having earned your LEADS Learning Series or equivalence via the CHE Select Program, the [Certified LEADS Specialist Certification](#) is perfect for any individual wishing to integrate LEADS into their organization, which allows their organization to be eligible to become fully LEADS licensed.

WHAT'S NEXT?

Strategic Alliance Partnership

Initiate and foster a *Strategic Alliance* partnership between your health organization and the College. Strategic Alliances provide a mechanism for building a common leadership language and impacting the Canadian health system.
