

THE OPPORTUNITY

An exciting opportunity awaits a **Executive Director, Clinical Informatics** seeking a fulfilling role in a welcoming community setting.

APPLY TODAY!

The Executive Director, Clinical Informatics position is responsible for planning, directing and implementing a major digital health transformation project encompassing advanced clinical information systems modules across Interior Health's hospitals and long-term care facilities. As part of the VP Digital Health leadership team, the Executive Director develops strategies and plans to digitally enable healthcare delivery. The Executive Director will work in a dyad leadership with the Medical Director, Digital Health and Informatics. The dyad partnership works to advance the development and adoption of a fully interoperable electronic health record and digital workflows. Strong project management and change management skills are essential for success in this role.

KELOWNA BRITISH COLUMBIA

Discover the captivating beauty of **Kelowna**, a gem nestled in the heart of British Columbia! With its breathtaking landscapes, vibrant cultural scene, and endless outdoor adventures, Kelowna is a spectacular city to behold. Immerse yourself in the awe-inspiring landscapes as you spend a day basking in the picturesque Okanagan Lake. Delve into the city's rich history or indulge in a culinary journey through its diverse restaurants and wineries. From exhilarating mountain biking trails to world-class golf courses, Kelowna offers something for every outdoor enthusiast. Experience the warm hospitality and laid-back charm of this vibrant city and create lifelong memories in Kelowna, a truly extraordinary destination.
